### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

On January 3, 2007, an Office Action was sent to the Applicant rejecting claims 1-37. On July 3, 2007, the Applicant responded with arguments.

#### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-6, 8-9, 12-21, 23-24, 27-32, and 34-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spencer (6,356,909) in view of Albazz (2002/0046081), as set forth in the previous Office Action.

Claims 7, 22, and 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spencer and Albazz as applied to claims 1 and 16, and in further view of Lee (US 2002/0615814), as set forth in the previous Office Action.

Claims 10-11, 25-26, and 36-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Spencer and Albazz as applied to claims 1, 16, and 27 above, and in further view of Tenorio (US 2003/0208424), as set forth in the previous Office Action.

***Response to Arguments***

Applicant's arguments filed July 3, 2007 have been fully considered but they are not persuasive. The Applicant argues that none of the references disclose or teach user input specifying a particular response attribute of a plurality of response attributes to be evaluated according to the particular compliance rules; user input specifying the particular compliance rule of a plurality of predefined compliance rules; or evaluating the response attribute data for the particular response attribute using the particular compliance rule. In response, Spencer discloses user input specifying a particular response attribute of a plurality of response attributes to be evaluated according to the particular compliance rules (The user inputs attributes of RFP and responses to the RFP are inputted into the system—col.8, lines 5-38--and evaluated according to compliance rules taught by Albazz); user input specifying the particular compliance rule of a plurality of predefined compliance rules (Albazz teaches compliance rules—terms and conditions p.5, 56-59); and evaluating the response attribute data for the particular response attribute using the particular compliance rule (the response attribute data may be evaluated in order to determine whether or not they correspond with the terms and conditions—compliance rules—taught by Albazz—p.5, 56-59).

The Applicant argues that the Examiner did not respond to the argument presented in the previous Office Action pertaining to Spencer failing to disclose or teach specifying a particular response attribute of a plurality of response attributes. In response, the arguments were moot in view of the new grounds of rejection presented to the Applicant.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lalita M. Hamilton whose telephone number is (571) 272-6743. The examiner can normally be reached on Tuesday-Thursday (6:30-2:30).
